This Course is aimed at cardiology trainees (ST3-ST7), Clinical and research fellows , speciality doctors, senior cardiac physiologists and specialist arrhythmia nurses.

This is a two days intensive course covering all the basic and core aspects of cardiac pacing. It is intended to provide you the strong introduction to cardiac pacing covering the core elements of national curriculum with particular emphasis on practical skills and difficult cases. There will be plenty of opportunity for hands on in small groups.

We are into the 5th year of this course after the successful launch in 2013. Our course has always received very positive feedback with 90% delegates rating the course as excellent and 85% saying they would recommend this course.

The Liverpool Hands On Cardiac Pacing Course

The Liverpool Hands On Cardiac Pacing Course

Course Agenda

19th June, 2018

10 am - 05 pm Hand on session covering all practical aspects of pacing using latest pacing simulators and anatomical models (Supervised by the faculty). This will include wet lab session, pacing troubleshoots, implant techniques and surgical skills.

Practical session teaching will be delivered in small group of 3-5. Due to overwhelming requests to increase hands on time from previous courses, we have now dedicated full day for hands-on sessions.

This event is supported by an unrestricted educational grant from the industry
